OBJECTIVE

I'm a 2x AI startup founder looking for Lead Product Management roles in Edtech, Health Tech, Consumer Tech, and Developer tooling.

SELECT WORK EXPERIENCES

CopyCat - 18k+ users

Philadelphia, PA

Co-founder - COO & CAIO

Jan 2021 - Jun 2023

Convert your Figma designs to React.js code in 30 seconds using AI (Github Co-pilot but for converting designs to code)

Product Strategy & Go-to-market

- Led the product team in developing **core technology**, a **code generation** engine.
- Architected & co-engineered **AI and data infrastructure**, boosting experimentation rate by **4-6x**, cutting training costs by **50%**, and speeding up embedding inference pipeline by **13.4x**
- Established data-oriented **CI/CD** pipelines for early error detection.
- Implemented **data flywheel** and **gamified UI** to acquire user-corrected data.
- Led SMB pilot sales with a **sales playbook** and CRM process, achieving 4 successful pilots at \$5k ACV.

Leadership

- Trained leadership in **customer validation**, **decision-making tools**, and **AI best practices**, growing Product Market Fit score by **15%** in 3 months.
- Reduced **sprint** delays from **5 days to 1** by adopting **SCRUM** and **probabilistic planning**.
- Curated a team of 12 through **hiring** and **onboarding** improvements.
- Supported GTM with blog articles that received **50k+ hits/month** and ranked **#9** globally for the "CopyCat" keyword.
- **Mentored** 2 ML Interns to full-time ML Engineers.

Product Management and Development

- Increased weekly **user retention** by **7%** by integrating AI models into the code generation process.
- Directed ML team in research and integration of various **Computer Vision**, **Generative AI**, **Natural Language**, and **Reinforcement Learning** models
- Utilized heuristics and AI models for **data filtering** in the **data tagging** pipelines, reducing **costs by 45%**.

Orai, Inc. - 500k+ users

Philadelphia, PA

Intern → Product Manager → Co-founder & COO

Nov 2016 - Dec 2020

An AI-powered speech coaching app to make you a more confident speaker (Think Duolingo but for Public Speaking)

Product Strategy & Go-to-market

- Improved completion rates from **0 to 60%** and weekly **user retention 10%** in 1.5 months by introducing real-time feedback, lowering usage fatigue and adding **gamification**
- Implemented **Agile** methodology, cutting sprint delays from 1 week to 1 day.
- Developed data-enriched **roadmap** leading to **13.9% user payment rate** & revenue growth from **\$1k to \$20k MRR**.
- Performed **user segmentation**, organically **increasing paid signups 530%** and **ranking #1** in education on app stores.
- Streamlined analytics, reducing time for **data insights discovery by 12x**.
- Led **rebranding effort**, collaborating with design to increase audience engagement.

Leadership

- Raised **\$2.3M** from top-tier VC firms and angels in an over-committed round.
- Grew team from **3 to 21 members**; handled **contracts**, **NDAs**, and compensation.
- Introduced management practices and **resolved conflicts** in a rapidly scaling team.
- Managed finances, **legal** compliance, policies, employee benefits and **secured \$500K in in-kind benefits**.
- Supported **SaaS sales** with demos and **whitepapers**, generating **\$100k ACV** and **\$800k ARR** from major deals.

Product Management and Development

- Increased **session time by 30%** & weekly **user retention by 18%** through integration of AI models like Smile Detector, Pause Classifier, Gaze Detector, Filler Detector and Speaker Separator
- Designed a new results screen for a **Natural Language Generation system**, boosting weekly **user retention by 7%**.
- Improved **audio streaming** system reliability from **60% to 99.9%** through **error analysis** and system migration.
- Conducted 100+ **user interviews** using the "**Mom Test**" methodology to save hundreds of hours and increase reliability.

INVOLVEMENTS & ACHIEVEMENTS

- **Forbes 30 under 30 - Education 2021**
- Keynote speaker & judge: Junior Achievement Entrepreneurship Summit 2023
- Keynote speaker: Drexel Rising Starters Competition 2022
- Comcast LIFT Labs + Techstars 2018
- OnDeck Founders - Class 14
- Dorm Room Fund - 2017
- PSL Accelerator - 2017
- Invited talk at Cigna: Explaining artificial intelligence and how it impacts our professional lives?

ACADEMICS

Drexel University

B.A. Entrepreneurship, Computer Science. Minors: Marketing, Health Innovations

Philadelphia, PA

Sep 2016 - Jun 2020

Research

- Founderitis: A silent killer of startups | **EIX, December 20th 2019**
- Activating entrepreneurship: revisiting the theories of planned behavior & the entrepreneurial event through an analysis of the moderating & mediating effects of entrepreneurial dimensions on self-efficacy & initial intentions to launch | **Drexel 2020**

CERTIFICATIONS AND TRAINING

- Fullstack Deep Learning (November 2019/Spring 2021)
- Deep Learning Specialization - Deeplearning.ai
- Mathematics for Machine Learning Specialization - ICL
- Bayesian Methods for Machine Learning - HSE
- Programming with Google Go Specialization - UC Irvine
- Gamification - UPenn
- DeepMind x UCL Reinforcement Learning

SKILLS

Programming	Python (100k+ LOC), Golang (10k+ LOC), SQL (30k+ LOC) JavaScript - React.js & Vue.js (15k+ LOC), HTML/CSS (25k+ LOC), Bash (3k+ LOC)
Tools & Techniques	GCP, AWS, Azure, Paperspace, Scikit Learn, Pandas, PyTorch, Numpy, Tensorflow, Dask, Keras, Matplotlib, Plotly, Streamlit, Postgresql, BigQuery, FastAPI Docker, MongoDB, GraphQL, Jupyter, WebRTC, Dynamic Programming, OOP, Distributed Training, Feature Stores, Data Versioning, Object Detection, Image Classification, Image Similarity, GPTx Fine-tuning
Leadership & Management Skills	Product Research Document Writing, Market Research Document Writing, Mobile Analytics, Business Intelligence, Metabase, Superset, KPI Non-violent communication, Radical Candor, OKRs, Systems Thinking, Jobs To Be Done, Bayesian Decision theory, A/B testing, Funnel Analysis, Chokepoint analysis, Decision Matrix, Skip-level management, Data Analysis, Dog Fooding, SCRUM, Agile, Jira
Design and User Research	Lean Startup, Demographic Analysis, AIDA, Mom Test, Competitor Analysis, Market Research

PROJECTS

- Artificial Manga Panel Dataset
- MeowLearning: Train your team on Production AI - quickly
- ML Project Template
- Second Brain - Smart Slipbox
